1. Q. Who is your Lord?

A. My Lord is Allah who created me and out of his bounty and gave me life.

2. Q. How do you know your Lord?

A. I know my Lord by His many signs. From His signs are the night and the day, the sun, moon and the stars.

3. Q. Who created the Heavens and the Earth, the sun and the moon?

A. Allah created the Earth that we walk on. He created the sun, the moon, and the stars that we see in the sky. He created mankind, the mountains, and the trees. Allah created everything. He sends down rain from the sky. He provides His worshippers with food, drink and all they need. He heals us when we are sick. Nothing is worthy of worship in truth except Allah alone.<sup>1</sup>

<sup>1</sup> Now that you have taught this lesson to your child/children take them outside and review the lesson with them. When outside ask them to point out some of the things that Allah created. If you can, have them pick some flowers and leaves from the ground. Once you are done with the visual part of this lesson, have them draw pictures (i.e. things with no soul) of things that Allah created. After they are finished make them a book using the pictures they drew, the flowers and the leaves. Tell them this is their reward for doing so well in their first lesson.
